

# Regional Telecom Trainers

## Job Descriptions

We are looking to hire full-time regional trainers in telecommunication. If you are a fresh graduate in EE/EEE/ICT, or someone with a few years of working experience in the telecommunication/electronics industry, and with a passion to learn and teach in telecommunication engineering, and like to travel to different countries and meet with different people, here is the perfect job for you.

The successful candidate will be trained up to become a trainer in one of the following technical fields:

- \* Transmission network equipment - SDH, WDM, OTN, Microwave Radio
- \* Access network equipment - DSLAM, GPON, MSAN
- \* Wireless network equipment – BTS, BSC, NodeB, RNC

Intensive train-the-trainer training & certification will be provided to the successful candidate prior to any job assignment to deliver the training to the customers. You will be assigned to deliver training in countries in the South Pacific region such as Malaysia, Singapore, Indonesia, Australia, New Zealand and Bangladesh.

## Responsibilities

1. Continuous self-learning and upgrading of one's technical knowledge and competency in the assigned telecom network products and technology
2. Coordinate with training coordinator in the host country for the pre-training preparation and setup of the training class & lab environment
3. Deliver onsite training to the customers in the region
4. Prepare and submit post-training reports

## Requirements

1. Degree in Electronics/Electrical Engineering or Communications Engineering or ICT (specialized in Data Communication or IP Networking)
2. Speak good English and confident in public speaking
3. Excellent communication and presentation skill
4. Able to travel and extensive regional travel is expected
5. Enjoy continuous learning and teaching
6. Adaptable and flexible to dynamic working environment

This position is KL-based. Interested? Please send in your application and resume to [alvinyee@dreamcatcher.asia](mailto:alvinyee@dreamcatcher.asia)
