

Technical Writers

Do you have good communication skills and an ability to grasp technology? Do you have an eye for detail and the ability to explain difficult concepts for readers who cannot afford to read twice? If your answer is yes to the above, then you have what it takes to be a good technical writer. We have vacancies for technical writers with the job requirements and responsibilities below.

Requirements

- Degree in a technical field such as Computer Science, Engineering, Pure Science, or Applied Science
- Computer literate – experience in desktop publishing software such as Adobe FrameMaker, InDesign, Illustrator, and Photoshop is an added advantage
- Excellent command of the English language – proficiency in other languages is an added advantage

Responsibilities

- Develop and support content for user manuals, online help, data sheets, brochures, teaching material, and e-learning packages.
- Manage the localization, where appropriate, of the above content.
- Proofread and ensure that format, grammar, and writing are consistent with our customers' writing style guidelines.
- Work closely with our customers to capture their expectations.
- Ensure that technical documentation deliverables meet their quality and timeline requirements.

Permanent and **freelance** positions are available. Please send your application to jobs@dreamcatcher.asia

DreamReka is the Technical Writing arm of the DreamCatcher group of companies. We provide technical writing services to multinational clients; producing user manuals, online help, data sheets, brochures, teaching material, and e-learning packages for a worldwide audience.

The DreamCatcher group was founded in 2002 to provide Technical Training in the field of communications-enabling technologies. We are present in Malaysia, Singapore, Taiwan, and Thailand. With profitable growth and a highly experienced team of technical professionals, we have since expanded to other service portfolios such as Courseware, Design Services, and Technical Writing.

Our key achievements to date :

- ✓ *served more than 100 leading high-tech companies*
- ✓ *conducted over 500 classes to more than 9000 engineers since 2005*
- ✓ *won the Human Resources Minister Award for best training provider in Malaysia in 2008*
- ✓ *partnered with Agilent Technologies and Altera in providing courseware to universities worldwide*
- ✓ *designed RFIC and RF test boards for global market consumption*
- ✓ *produced user manuals and teaching material for use by engineers worldwide*
